4. The conditions set forth in Para. 1, d are not specifically covered by the regulations; however, it would appear that the same regulations could be applied providing the individual remained overseas for the convenience of the Government, waiving his right to home leave until a time which would be convenient for the Government and signed a new two year contract for duty at the same or a different post of duty.

4. The authorization for shipment under the above would include points between which transportation was authorized at Government expense with a reference to the authority under which transportation was being authorized. The employee may however ship effects from a place other than that authorized, any excess cost to be charged to officer or employee. Packing of effects and cartage from residence or place of storage to shipping terminal would be at Government expense regardless of shipping point.
